

DEFINITIONS

Sociology

- He science of society and the social interactions taking place. Its focuses attention on all kinds of social acts, social relationships, social organizations, social structures, and social processes. The social facts it gathers include the recurrent and repetitive forms of behavior; the attitudes, beliefs, values, norms, and social institutions which make up the social order. Sociology studies not only the structure and function of social organization but also the changes which take place within it. **(Panopio, Isabel S. *Sociology: focus in the Philippines, QC: KEN incp., c1994., Fil 301 P91 1994, Filipiniana Section, University Library*)**
- Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations, and societies, and how people intera+ct within these contexts. Since human behavior is shaped by social factors, the subject matter of sociology ranges from the intimate family to the hostile mob; from organized crime to religious cults; from the divisions of race, gender and social class to the shared beliefs of a common culture; and from the sociology of work to the sociology of sports. In fact, few fields have such broad scope and relevance for research, theory, and application of knowledge. **(<http://www.asanet.org/page.wv?Section =Sociologists&name= What+is+Sociology%3F>)**

INTERNET RESOURCES

Multimedia and Internet Workstation 2nd and 3rd Floor

SocioSite from University of Amsterdam

[Retrieved February 24, 2015 <http://www.sociosite.net/>

The SocioSite is designed to get access to information and resources which are relevant for sociologists and other social scientists. It has been designed from a global point of view - it gives access to the world wide scene of social sciences. The intention is to provide a comprehensive listing of all sociology resources on the Internet. The enormity and constantly changing nature of the Internet makes it impossible to develop a definitive and comprehensive listing.

Internet Sociologist

[Retrieved February 24, 2015] <http://www.vts.intute.ac.uk/tutorial/sociology>

This is one of a national series of tutorials written by qualified tutors, lecturers and librarians from across the UK. It is part of the Intute: Virtual Training Suite, funded by JISC.

American Sociological Association

[Retrieved February 24, 2015] <http://www.asanet.org/>

It is the official site of ASA whose mission is dedicatedly advance in the field of sociology as a scientific discipline and profession serving the public good.
